POST – OPERATIVE INSTRUCTIONS (ARESTIN PLACEMENT)

After placement of Arestin, you should avoid chewing hard, crunchy, or sticky foods (i.e., carrots, taffy, and gum) as well as avoid touching treated areas.

Please postpone the use of interproximal cleaning devices around the treated sites for 10 days after administration of Arestin.

Some mild to moderate sensitivity is expected during the first week after administration of Arestin.

Please notify the office promptly if pain, swelling, or other problems occur. Inform the office if itching, swelling, rash, papules, reddening, or other symptoms of possible hypersensitivity occur.

On _____ regular oral hygiene may commence (i.e., flossing, use of water pik, go-between proxy brushes, etc).

Sincerely,

Devin J. Okay, D.D.S., P.C.
Kristen M. Gratzel, D.M.D.
Robert M. Gabrielli, D.D.S.
Lisa O’Sullivan, R.D.H.
